Overview

Feilden Clegg Bradley Studios have experience in designing for education, housing, masterplanning and urban design as well as places for art and the creative reuse of historic buildings.

Challenge

Creative Commercial Interiors were employed to transform a disused motor garage into Feilden Clegg Bradley's new office extension. The extension was to reflect FCB's sustainability ethos. CCI were asked to marry FCB's existing offices with their new extension by using existing natural features combined with the natural finishes of timber & glass.

Solution

By retaining the natural features of the buildings, Creative Commercial Interiors were able to create a natural feeling space using light and natural materials. A key feature to the interior is the usage of birch plywood from sustainable forests to enhance FCB company ethos.

The space boasts one of the largest sliding glass doors in Ireland all hung on soft closing tracks. The combination of natural materials and the heritage of the building add real character and personality to the office.

Head Office

Units 69-70
2-4 Balloo Avenue
Bangor
Northern Ireland
