Overview

Creative Commercial Interiors were employed to re-furbish John Player's Head Office in Dublin. The overall project seen JPS interiors totally transformed through the use of light, colour, glass partitioning, graphics and contemporary furniture solutions.

Challenge

Creative Commercial Interiors were set the challenge to transform the JPS head office in Dublin into a functional yet funky place to work. Creative Commercial Interiors worked alongside a small JPS committee to provide space plans to maximise their space potential.

Solution

During the project the whole office was to be kept "LIVE". Creative Commercial Interiors completed the project in two phases which enabled John Players to facilitate their customers as their refurbishment was carried out. The interior design of the company was to reflect the modern and professional attitude of Imperial Tobacco.

"Thank you to Creative Commercial Interiors for delivering us bright, modern and cheery offices! "
